## Mountain biking

Off road biking is all cycling off paved roads, suitable for all levels.

Let us show you places and routes especially well suited for welcoming you as a mountain biker. These places will let you wash and dry your clothes, rinse and lock your bike, borrow tools, sleep comfortably, and make some nice food to bring along for the next exciting day.

And loads of superb scenery, exercise, challenges and excitement, of course.

## Cycling holiday

Active days and silent nights – wind in your hair and wine on the table – as far as you like, as challenging as you like, as comfortably as you like. The roads won't take your breath away, but the scenery will!

Cycling is a fun, convenient and healthy way to get around. It's an ideal way to explore the countryside, up close and at your own pace, stopping off to enjoy stunning views and a well-earned picnic along the way.

## Family fun on bikes

Active children are happy children! Give your family a holiday to remember.

How about cycling from dairy farm to dairy farm in the mountains, waving to the people sailing the Telemark canal, or cycling along the skerries of southern Norway, enjoying a trip to Denmark on your way back?
